The State of Infection Control, PPE, & Supplies: Today and Going Forward

The Covid-19 pandemic has caused a major disruption to dentistry. Infection control recommendations from the CDC change regularly and it is hard to keep up. Other challenges include: not enough PPE, can't get the right type of PPE, and trouble getting the usual supplies and disinfectants. Leslie will help dental professionals navigate their way to reliable information and resources so they can work safely and confidently.

IN THIS WEBINAR, WE WILL REVIEW:

- Help you select the proper PPE
- How to use disinfectants properly and what to avoid
- Identify reliable resources you can utilize for infection control

ADA CERP[®] | Continuing Education
Recognition Program

Benco Dental is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Benco Dental designates this activity for 1 continuing education credit. This continuing dental education course is provided pursuant to the laws, regulations and accepted dental practices of the state in which it is being provided. Participants should not assume that all the practices, policies, procedures and techniques outlined in this course will be applicable to the practice of dentistry in other states. As such, participants who practice in other states should refer to the rules and rulings of their own state dental boards to determine the applicability and appropriateness of the instruction provided.
